Rating s & Reviews

Hari ★★★★★

The [Ertiga](https://www.droomdiscovery.com/new-cars/marutisuzuki-ertiga), which is based on the current Swift platform, is Maruti's first crack at the MPV segment Maruti has made all efforts to make its new mini-MPV as car-like as possible.
 On the outside
 Its wheelbase, at 2740mm, is a considerable 310mm longer than the Swift's and the kerb weight has increased by around 155kg. Which is impressive considering this car seats seven people. Suzuki has kept the Ertiga's weight in check with extensive use of lightweight high-tensile steel in its construction. At 4265mm in length, the Ertiga is a fair bit shorter than the other MPVs in the market like the [Toyota Innova](https://www.droomdiscovery.com/new-cars/toyota-innova-crysta), [Mahindra Xylo](https://www.droomdiscovery.com/new-cars/mahindra-xylo) and Tata Aria.

You instantly notice the familiar styling that is typical to Suzuki cars, with swept-back headlights like the new Swift's, and a grille and bonnet that resemble the Ritz. It's not the most eye-catching of designs, but it's pleasing.
 On the inside
 Entry to the cabin is made easy by large doors that open wide. The dashboard is a straight lift from the Swift, so quality and ergonomics are generally quite good. The door pads and other plastics are of good quality, and the Ertiga doesn't feel built to a price. This car comes with a fair bit of equipment too – it comes with a CD player, Aux and USB ports, steering-mounted audio controls, powered mirrors and power windows. However, the more affordable VDi/VXi variants do without alloy wheels, fog lights and airbags.
 Visibility is decent from the front seats, lifted right from the Swift. They are broad with soft yet generous cushioning, which makes them truly comfortable even over long journeys. In the second row, the seat squab is a touch short, so under-thigh support is not as good as we would have liked. Other than that, it's hard to fault. The adjustable backrest, terrific headroom and decent legroom make the Ertiga's middle bench a pretty comfortable place to be. At the back, the last row isn't as uncomfortable as you'd think.

The narrow access means getting into the last row requires some twisting and turning. Also, once you're inside, shoulder room is tight and the squab is short.
 What's a nice touch is that the massive 240mm seat travel can move forward and back allowing you to adjust leg room for both the second- and third-row passengers. Well-engineered latches and levers allow you to push forward or collapse the seats neatly into the floor. With all seven seats in place, there is enough space in the back to hold just two soft bags, while a concealed storage bay hidden beneath can

Component Health Check

A vehicle undergoes enormous wear and tear with time. It is often imperative to inspect and replace parts of the vehicle on a timely basis to keep it in prime condition. These aspects often go unnoticed and become real pain points with time. Use the Component Health Check for maintaining your vehicle components without any hassles. It would provide the list of parts to be inspected every subsequent year based on their age to help you find out the parts needing replacement.

*This is a suggestive list and is not based on the actual physical inspection of this vehicle
