Introduction

Shortly after a mid-life update, Ford has brought back the 1.0-litre EcoBoost motor. This is after it first made an appearance in 2013. Performance-wise, not much has changed – the 999cc motor makes 125hp and 170Nm of torque. But, when it comes to the...

Component Health Check

A vehicle undergoes enormous wear and tear with time. It is often imperative to inspect and replace parts of the vehicle on a timely basis to keep it in prime condition. These aspects often go unnoticed and become real pain points with time. Use the Component Health Check for maintaining your vehicle components without any hassles. It would provide the list of parts to be inspected every subsequent year based on their age to help you find out the parts needing replacement.

*This is a suggestive list and is not based on the actual physical inspection of this vehicle
